

GOVERNMENT OF PUNJAB

ECONOMIC AND FUNCTIONAL CLASSIFICATION

OF MUNICIPAL BUDGETS IN PUNJAB

FOR THE YEAR 2008-09

(2006-07 (A/C) & 2007-08(R/E))

**ECONOMIC AND STATISTICAL ORGANISATION, PUNJAB,
CHANDIGARH**

PREFACE

Budgetary operations have assumed greater significance now a days. Government budget not only undertakes the programming of Public Sector plan outlays but also provides the mechanism for the use of selective fiscal and credit policies to modify private incentives. The role of the budgets of Local Authorities is equally significant and Urban Local Bodies have a vital role in augmentation of multifarious amenities in their command areas.

The United Nations Report entitled, "A Manual for Economic & Functional Classification to Government Transactions, 1958" is the main source of guidance on classification work.

Functional Classification Scheme classifies expenditure according to broad purpose to be served. It is designed to show how expenditure is divided among different types of services provided. All types of expenditure are given under a particular head irrespective of the fact where they appear in the budget. The functional classification enables to bring out distinction between developmental and non-developmental expenditure.

The present classification of the municipal budget is the thirty-ninth in the series since 1970-71. According to the budget, all the Municipal Councils/Corporations in the State anticipated the total revenue of Rs. 1289.10 crores in 2007-08(RE) as compared to Rs. 1171.83 crores in 2006-07 (A/C) . The classification further observed that there is progressive increase in the total expenditure .The revised estimates for the year 2007-08 estimated the expenditure at Rs.1199.31 crores as compared to Rs.1176.95 crores in the 2006-07(A/C).

I hope that this report will be found useful by the Administrators and Research Scholars interested in the study of budgetary transactions of the Municipal Committees of State of Punjab.

Suggestions, if any, for improvement of the coverage and contents of this report are welcome.

Main Highlights of the Findings

The role of Urban Local bodies i.e. Municipal Committees/Councils & Corporations is increasing day by day in augmentation of multifarious amenities in their command areas. Main highlights of the findings emerging from the study of economic classification of Budget of these committees/councils & Corporations are as under:

- 1) The total expenditure of these Committees/Councils and Corporations had increased to Rs.111292.08 lakhs in 2006-07 from Rs.93500.81 lakhs in 2005-06 showing an increase of 19.03%.
- 2) The available figures shows that almost half of the expenditure is the consumption expenditure. Total consumption expenditure is Rs.55963.02 lakhs in 2006-07 which constitutes 50.28% of total expenditure. Out of it, expenditure only on salaries and wages was Rs.42895.45 lakhs which is 38.54% of total expenditure. In other words over one third of expenditure was on salary & wages.
- 3) Gross capital expenditure that is expenditure on building, roads and other constructions, machinery & equipments and purchase of vehicles is Rs.49585.26 lakhs in 2006-07 as against Rs.36845.28 lakhs in 2005-06 showing an increase of 34.58%. The expenditure on Gross Capital Formation (i.e. development) was 44.55% of the total expenditure in the year 2006-07.
- 4) Current receipts by these Municipal Committees/Councils & Corporations were Rs.108089.90 lakhs in 2006-07 whereas these were Rs.102852.82 lakhs in 2005-06 which show an increase of 5.09% over the previous year. The current receipts were 97.12% of the total expenditure.
- 5) The tax revenue was the main source of revenue which was 81764.50 lakhs (79.50%) in 2005-06 and Rs.80771.07 lakhs (74.73%) in 2006-07. Other sources of revenue include Income from property and Entrepreneurship Rs.9056.72 lakhs (8.38%) Miscellaneous receipts Rs.11185.36 lakhs (10.35%) and Revenue grants & contributions Rs.7076.75 lakhs (6.55%) in the year 2006-07.

Chapter 1

Introduction

The budget exhibits the detailed information regarding revenue and expenditure and other financial transactions. It is framed for the judicious scrutiny and authorisation of expenditure and revenue proposals in a given financial year in terms of various departments and purposes. But this document does not give clearly the economic significance of various heads of revenue and expenditure. Rather it becomes difficult to have clear pictures of capital formation, savings etc. This lacuna is removed by reclassifying and regrouping the financial transactions into meaningful economic categories.

In the democratic set-up of government, the Municipalities / Corporations also play an important role in the development of the urban areas. Under Rule II of the Municipal Accounts code, 1930, all the Municipal Committees / Corporations are required to submit their annual budgets on the G-1 Form to their respective Deputy Commissioners / Commissioners for approval. Since this is an important sector of the economy, proper analysis of its transactions is very useful. Thus, the importance of economic and functional classification of the Budgets of Municipal Committees/Corporations need no emphasis. For the purpose of economic-functional classification the approved copies of the Budgets were procured from all the Municipalities/Corporations and compiled and classified at State level. The present economic-functional classification is based on the pattern of Economic & purpose Classification of the State Government Budget.

Principals of Economic Classification

The system of classification adopted here is based on a series of distinctions useful for analyzing their economic impact on the rest of the economy. Current transactions in goods and services are separated from transfers. The current transactions of municipal administration are distinguished from the current operations of departmental commercial undertaking as current expenditure of the former on wages and salaries and goods and services are final outlay but these of the later are intermediate expenditure such as cost of raw material, fuels etc. We may say such expenditure represents expenses of production and not expenditure on final goods and services. Purely financial transactions are again separated from transactions in goods and services and transfers.

The details of the significant economic heads are given under the following five accounts:-

- Account I. Transactions in Commodities and Services and Transfers:
Current Account of Municipal Committees/Corporations.
- Account II. Transactions in Commodities and Services and Transfers:
Current Account of Departmental Commercial Undertakings.
- Account. III Transactions in Commodities and Services and Transfers:
Capital Account of Administration and Departmental Commercial Undertakings of Municipal Committees/Corporations.
- Account. IV. Changes in Financial Assets and Liabilities. Capital Account of Municipal Committees/Corporations.
- Accounts. V. Cash and Capital Reconciliation Account of Municipal Committees/Corporations.

CHAPTER V

Notes on the Accounts, their Derivation and Rationale Account I. Transactions in Commodities and Services and Transfers:

Current Account of Municipal Committees/Corporations in the State:

Account -1

This account deals with the current revenue and expenditure of all the Municipal Committees/Corporations in the State. All departments other than those listed under Account II in the chapter are considered as administrative for the purpose of this classification. The current expenditure of administrative departments consists of the final outlay, of Municipal Committees/Corporations on current account which represents consumption. The final outlays are made up of purchases of commodities and services and wages and salaries payments. Besides final outlays, Municipal Committees/Corporations make transfer payments, i.e. grants scholarships, prizes etc. to the rest of the economy which indirectly add, to the disposable income of the community. To meet the current expenditure, Municipal Committees/Corporations appropriate a part of the income of the community through a variety of taxes, miscellaneous receipts accruing during the course of administration. In addition, Municipal Committees/Corporations have an investment income from property and entrepreneurship. The Municipal Committees/Corporations also receive revenue grants, contributions and recoveries from the State Government and others. The excess of the current receipts over current expenditure denote the savings of the Municipal Committees/Corporations available for capital formation. Some of the items included in this Account are explained as below:-

Expenditure:-

Item 1.1 Wages and Salaries: - This item includes pay of the establishments (other than traveling and daily allowances), other allowances and honorarium and 50 per cent to the expenditure incurred on unclassified miscellaneous heads. Wages and Salaries also include contributions to provident funds.

Item 1.2 Commodities and Services:- This item includes all expenditure under contingency, office supplies, fuel and light, expenditure on repairs and maintenance, printing, traveling and daily allowances, telephone and telegraph charges, taxes and rent of hired buildings and machinery and equipment, 50 per cent lump-sum miscellaneous unclassified, charges and other items for current operation.

Item No.2 Transfer Payments: - Transfer payments include grants, scholarships, stipends, prizes and awards, etc.

Item No.3 Savings on current account: The balancing item on the current account of the Municipal Committees/Corporations represents the savings of this sector, i.e. surplus of current receipts over current expenditure.

Revenue:

Item No. 1 Tax Revenue: Tax revenue is classified into direct and indirect taxes. Direct taxes are levied by public authorities at regular intervals on income from employment, property, capital, gains, etc. and on financial assets and the net or total worth of enterprises non-profit institutions or households. Taxes falling under this category of Municipal Committees/Corporations are profession and trade tax, servant taxes on house and lands, taxes on goods and services that the chargeable to business expenses and taxes on the possession or use of goods and services by households are treated as indirect taxes. The main categories in the Municipal Committees/Corporations Budgets are octroi, terminal tax, taxes on vehicles and animals, fees for vehicle licenses, dangerous and offensive trade license fees, licence fees for job porters, tolls on vehicles and animals, local rates, advertisement tax, miscellaneous other taxes and duties.

Item No.2 Income from property and entrepreneurship: - This records the income receivable by the Municipal Committees/Corporations from departmental Commercial Undertakings as well as the net rent, interest and dividend accruing to them from the ownership of building or financial assets.

Item No.3 Miscellaneous Receipts: - This item includes fines and penalties, births and deaths registration fees, copying fees etc.

Item No.4 Revenue Grants, Contributions and Recoveries: - These are current receipts accruing from the State Government and various Committees and Boards.

Account II - Transactions in Commodities and Services and Transfers:

Current Account of Departmental Commercial Undertakings.

The Departmental Commercial Undertakings, briefly be defined agencies producing goods and services that are not provided free of charge. The essential characteristics distinguishing these departments from other administrative departments are that they charge for what they provide according to use and are thus able to meet a part or most of their costs from their sale proceeds. In this study electricity, transport and water supply have been classified as Departmental Commercial Undertakings.

The expenditure side of the Departmental Commercial Undertakings spell out the current expenditure into wages and salaries, commodities and services, repairs and maintenance, interest, provision for depreciation and profit which is transferred to Administrative Departments. Repairs and maintenance expenditure is shown separately because of the importance of such expenditure of the efficient working of commercial enterprises. This expenditure is further divided equally between wages and salaries and commodities and services since the required details are not available in budgets of the Municipal Committees/Corporations. On the revenue side the gross sale proceeds are given.

Account III- Transactions in Commodities and Services and Transfers:-

Capital Account of Administration and Departmental Commercial Undertakings of Municipal Committees/Corporations.

This Account is concerned with the total capital outlay representing physical assets and formation by the Administrative Departments and Commercial Undertakings of the Municipal Committee/Corporations. The savings transferred from Account I and capital grants received by the Municipal Committees/Corporations constituted the source of finance for all expenditure recorded in this Account.

The difference between savings and capital formation is often used in economic analysis as a measure of budgetary deficit. The deficit which is shown as balancing item in Account III along-with net increase in financial assets and liabilities in Account IV gives the total requirements of finances of the Municipal Committees/Corporations. Gross fixed capital formation classified into buildings and other constructions and machinery and equipments as given below of Administrative Departments of Departmental Commercial Undertaking.

Item 1.1 Buildings and Other Constructions: - This item includes all expenditure on works of buildings and reservoirs, constructions of roads and payments of streets.

Item 1.2 (a) Machinery and equipments: Machinery and equipments includes expenditure incurred on the purchase of tools and plants by the Municipal Committees/Corporations of the State.

1.2 (b) Renewals and replacements: - Expenditure on repairs and renewals on water supply works has been divided into renewals and repairs on 50:50 basis.

Item 1.5 Increase in Inventories: - This item represents increase or decrease in work stores and stock of goods, etc. Suspense Account is included under the head 'Work Stores'.

Revenue:-

Receipt on capital Account: - Receipts available for capital formation consists of gross savings on Current Account brought over from accounts I and II, capital grants, contributions and recoveries from the State Government and other institutions.

Account IV- Changes in financial assets and Liabilities:-

Capital Account of Municipal Committees/Corporations in the State.

This Account which shows the changes in the financial assets and liabilities of the Municipal Committees/Corporations in the State is converted with transactions in financial investments and repayment of loans and advances. The balancing items of this Account representing net financial assets and liabilities when added to the deficit in Account III which gives the total requirements of finance of the Municipal Committees/Corporations for fixed assets formation and for the accumulation of financial claims against the rest of the economy.

Account V- Cash and capital reconciliation account of Municipal Committees/Corporations in the State.

This account sums up the net position in respect of Accounts III and IV showing the effect of all transactions of the Municipal Committees/Corporations in the State, on its cash position. As stated earlier, Account III gives the net position in respect of all transactions in commodities and services and transfers while account IV bring out the net position in respect of financial assets and liabilities

Functional Classification

CHAPTER VI

PRINCIPLES OF FUNCTIONAL CLASSIFICATION

Economic classification groups the primary items of expenditure by their economic character while functional classification groups them according to the particular purpose they serve. It is designed to show how expenditure is divided into different types of service provided. It gives information about public expenditure devoted to a particular service or group of services, say education, health or housing and community, services etc.

The functional classification excludes current expenditure on goods and services of Departmental Commercial Undertakings. These enterprises produce goods and services that are sold largely outside the public sector. Their current expenditure on goods and services is an intermediate expenditure which represents cost of production and net expenditure on final goods and services. It may also be noted that the functional classification is not applied to receipts except to those which may be considered as offsets to expenditure on goods and services included in this type of classification such as proceed from sale of goods and services.

All items of expenditure have been grouped under different broad functional categories. The U.N reports i.e., a Manual for Economic and functional Classification of Government Transactions, 1958 and a System of National Accounts, 1968 serve as guidelines.

The list of major and minor purpose categories as under:-

1. General public services.
 - 1.1 General administration, external affairs, public order and safety.
 - 1.2 General research.
2. Defence
3. Education
 - 3.1 Administration, regulation and research.
 - 3.2 Schools, universities and institutions including subsidiary services.
4. Health.
 - 4.1 Administration, regulation and research.
 - 4.2 Hospitals, clinics and other Health Services.
5. Social security and welfare services.
6. Housing and other Community amenities.
7. Cultural, Recreational and Religious services.
8. Economic Services.
 - General Administration Regulation and Research.
 - Agricultural Forestry, Fishing and Hunting.
 - Mining, Manufacturing and Construction.
 - Electricity, Gas, Steam and water.
 - Water Supply.
 - Transport and Communication.
 - Other Economic Services.
9. Other Services.
 - 9.1 Relief Operation.
 - 9.2 Interest (other misc. services)
 - 9.3 Public Debt.

Economic and Functional Classification have been combined into a single two way cross classification by significant economic and functional categories. It relates to budgetary expenditure for the year 2006-07 (Accounts) 2007-08 (Revised Estimates). The Table 6.1 splits up horizontally, the expenditure on each service for the years under review into significant economic categories. The broad division of economic classification are current and capital expenditure while that of functional classification are general government services, defence, education medical and public health, social security welfare services, housing and community amenities, cultural, recreational and religious services, economic services and other purposes. From this, it is very easy to see the nature of expenditure on each group of services. For example, it can be seen how much is spent on goods and services of a gross capital formation for promoting education health, water supply etc. Table 6.2 depicts the percentage distribution of the total expenditure among the functional categories. These figures when presented for number of years would be useful in studying trends in the expenditure.

CHAPTER VII

DETAILED FUNCTIONAL CLASSIFICATION SCHEME

This chapter presents a detailed scheme for the functional classification of the Municipal Committees / Corporations budgetary expenditure. The principles of the scheme have already been discussed in the previous chapter.

The detailed scheme which is presented in the following pages is put forward as an illustration of the classification of Municipal Committees / Corporations expenditure by purpose. It can be further expanded by introducing more Programme/activities under the main category of expenditure.

Table 7.1 presents the functional classification of Municipal Committees / Corporations budgetary expenditure with percentage distribution for the years 2006-07 (Accounts) and 2007-08 (Revised Estimates).

**Table No. 7.1 Functional classification of Municipal Committees/
